

# Leave the logistics to us

## TRUSTED WAREHOUSE AND ORDER FULFILLMENT

We've simplified ordering, inventory reporting, and outbound shipping tracking with our powerful, end-to-end warehouse management system — so you can leave the logistics to us, and get back to growing your business.

### END TO END TRANSPARENCY

Enjoy greater visibility from order to dispatch. Our powerful, integrated warehouse and transport management system gives you visibility on all orders, invoices, inventory levels, and movement at all times.

### ACCURACY AT EVERY STEP

Our state-of-the-art Logistics Management System provides transparency for warehouse and transport services, giving you greater peace of mind and actionable data for business planning.

### BARCODE SCANNING

The safety and condition of your stock is our primary focus, which is why we can provide barcode scanning for stock movement tracking, inventory pick and pack, driver consignment confirmation, delivery and more.

### URGENT ORDERS? NO PROBLEMS.

You can flag priority orders in the system, to be fulfilled urgently under high priority rates.

### TRANSPARENT & EFFICIENT DELIVERY TRACKING

With sign-on-glass technology, drivers can record digital proof of delivery notes (ePODs) which are recorded instantly in the system for faster invoicing.

**Want more detail?** Drivers can also attach comments or photos for more delivery detail, where needed — keeping you informed where it matters most.

### EASY AND FLEXIBLE SOFTWARE INTEGRATIONS

For greater accuracy, seamless omnichannel ordering, and end to end data flow we can integrate with hundreds of software applications; simplifying your data entry and providing greater end to end transparency.

### 24/7 ONLINE PORTAL ACCESS

Keep eyes on your orders and inventory 24/7 from your customer portal dashboard. You can upload files, view orders and generate your own configurable reports when you need them, at the click of a button — or, ask about setting up notifications for low stock warnings or other triggers like incoming orders, order fulfillment, and delivery.
